

Karim Ashraf

Product Designer | Product Strategy, Growth and AI-Assisted Delivery

SELECTED WORK

I design clear, high-trust digital products where customer needs, business goals, and technical constraints meet. My work spans consumer journeys, complex workflows, product systems, and AI-assisted prototyping.

Money Fellows	Consumer fintech journeys shaped around trust, accessibility, and meaningful product outcomes.
Bluworks	B2B product design that simplifies operational complexity into focused workflows.
Playful	An AI-assisted product-building exploration spanning product architecture, dashboards, administration, and prototypes.
