

Karim Ashraf

Product Designer | Fintech, Growth and AI-enabled Product Development

Cairo, Egypt | (+20) 10 6915 3644 | karim.sn98@gmail.com | LinkedIn | Portfolio

PROFILE

Product Designer with 4+ years of experience shipping consumer and B2B products across fintech, HR SaaS, social commerce and AI-enabled ventures. Connects customer research, behavioral data, product logic and technical constraints to create clear, trustworthy experiences and measurable product movement. Works end to end from discovery and journey definition through prototyping, delivery support, implementation review and iteration.

CORE EXPERTISE

Product: Discovery, interaction design, mobile and responsive web, information architecture, prototyping, design systems, implementation QA, product operations

Growth and research: 70+ Money Fellows customer interviews, funnel analysis, onboarding, activation, personalization, recommendations, behavioral design, conversion optimization

Domains and tools: Fintech, risk and credit journeys, KYC, B2B SaaS, AI products | Figma, FigJam, Miro, Maze, Mixpanel, Notion, Google Workspace, ChatGPT and agentic workflows

PROFESSIONAL EXPERIENCE

Money Fellows

Product Designer - Full-time

Feb 2025 - Present

Cairo, Egypt - Hybrid

- Led the Goals experience from discovery through rollout, reaching 12% organic engagement, 61.1% conversion to goal creation and 69.8% conversion into the circle-join flow.
- Contributed to Recommendation Engine phases 0-1, supporting 14% adoption, 6,000+ recommendation-driven bundles and approximately 48% conversion at high-performing new-user entry points.
- Improved onboarding using insights from 70+ customer interviews and behavioral analysis, reaching approximately 99% screen-to-screen conversion across the optimized sequence.
- Delivered a high-priority customer migration in under two weeks, aligning Product, Engineering, Risk, CRM/Marketing and Design across states, messaging, edge cases and handoff.
- Designed trust-sensitive experiences across goals, personalization, eligibility, limits, KYC, credit communication and customer lifecycle changes; used AI-assisted workflows for research, specifications, prototyping, review and QA.

1MORETHING VENTURES

Product Designer - Part-time

Mar 2024 - Feb 2025

Remote

- Turned ambiguous venture concepts into MVP scopes, user flows, prototypes and decision-ready product direction across AI HR automation, stock counting, e-commerce assistance and B2B ordering.
- Designed product directions for Layla HR, Inveasy and Daaj, and supported the JumlatyPro B2B scheduling revamp from problem framing through delivery handoff.

Bluworks

Product Designer - Full-time

Dec 2023 - Jun 2024

Cairo, Egypt - Hybrid

- Designed a fixed-tablet clock-in experience in response to client safety and operational concerns, helping reopen sales opportunities while preserving relevant app functionality.
- Launched configurable approval workflows and a dedicated managerial mode, improving request handling and payroll-related operations across different customer structures.
- Expanded configurable payroll, attendance and bulk-upload capabilities, reducing repetitive customer-success work and improving platform scalability.

PROFESSIONAL EXPERIENCE - CONTINUED

Sharwa Product Designer - Full-time	Aug 2022 - Sep 2023 Cairo, Egypt
- Redesigned onboarding and purchase guidance using gamified progression, increasing app-open-to-order-placement conversion from 7% to 14%. - Designed the Open Groups homepage experience, increasing group-joining conversion from 40% to 75% within two months. - Led planning and design of the responsive web application and facilitated alignment workshops across Product, Operations and Marketing.	

AI-ENABLED PRODUCT PRACTICE

Uses frontier models and agentic workflows to accelerate research synthesis, product specifications, business-rule mapping, prototyping, edge-case discovery, backlog decomposition and QA planning. Built and managed an independent product initiative through a living specification connecting vision, requirements, journeys, acceptance criteria, implementation notes and delivery status while retaining human validation and accountability.

EDUCATION

Mansoura University B.Sc. Communication and Information Engineering	Sep 2016 - Aug 2021 Mansoura, Egypt
A+ graduation project. Engineering background supports systems thinking and close collaboration with technical teams.	
DvCircles Business Scholarship	Mar 2020 - Jun 2020 Mansoura, Egypt

LEADERSHIP AND LANGUAGES

AIESEC, 2018-2021: UI/UX Designer; Local Committee Vice President of B2C and Customer Experience; Organizing Committee President for Global Village. **Languages:** Arabic (native), English (professional).

POSITIONING

Best aligned with Product Designer, Growth Product Designer, Fintech Product Designer and senior individual-contributor roles that value customer discovery, measurable product outcomes, complex systems and strong Product/Engineering partnership.
